

Built-in, commercial overflow spas should be standard in all hotels and public areas.

The octagonal Antigua overflow spa, with a diameter of 2.7 m, has been designed to meet the most luxurious needs of our clients. This spa is designed for up to 8 people, who will enjoy the benefits of a wide variety of massage systems.

Overflow spas can be used privately, as well as commercially, as they provide full comfort thanks to their continuous water level and ease of installation.
